Diners views revealed

Today's discerning customer is noticing and critiquing everything from the food to the service and style of presentation.

A survey commissioned by Steelite International and carried out by research specialist One Poll, asked 2000 adults who dine out at least twice per month what role tableware plays in their overall dining experience.

The following highlights demonstrate how presentation in restaurants, pubs, cafes and hotels can affect the bottom line.

Stylish tableware drives business – presentation of the tabletop plays a vital role when choosing where to eat out, with 81% of diners stating that presentation of tableware is an important or very important factor. According to 61% of diners a well-presented table positively impacts their dining experience.

How much do you agree with this statement?
'The right tableware can enhance the mood of the occasion.'

Matching the offer is key to your bottom line

– three quarters of diners believe it is important for the style of tableware to reflect the establishment and 62% agreed that the right tableware enhances the mood of the occasion.

Help justify price points – sixty percent of diners expect a higher level of tableware the more they pay for a meal, clear demonstration that tableware has an impact on the value perception of a meal.

Failing to impress your diners? – whilst stylish tableware clearly makes a positive impression on diners, poor tableware can pose a risk to business, with 48% stating they would complain if the tableware was chipped and almost half of diners stating that they would be unlikely to return to an establishment if the table is poorly presented.

OperaTM

NEW RANGE

The Opera collection of presentation bowls draw their inspiration from the iconic Sydney Opera House in Australia. Designed in 1957 by Jørn Utzon and completed in 1973, the Sydney Opera House is one of the most architecturally important buildings of the 20th Century.

Opera bowls feature symmetrical but opposing curves to create a fascinating interplay of surfaces, which draw the eye to the food and excite the palate. Suitable for appetisers, entrées and desserts, Opera bowls offer an innovative, elliptical alternative to food presentation.

Optik™

NEW RANGE

A simply stunning range that offers innovation within a classic environment. Optik uses contours to interact with light across the surface of each piece. Perfect for banqueting or fine dining, each item carries its own unique, but sympathetic version of the embossment, adding an air of individuality, sophistication, and surprise.

The curves and lines move across the piece, creating highlights and shadows, accentuating the form and inviting the user to explore its tactile surface.

INSPIRATIONAL
DESIGN

Inspired Design

Optik was designed as a presentation vehicle, which maximises the importance of food texture. The sensuous curves and interplay of light and shade the embossment provides help to focus the eye on the food and to draw comparisons between the textured elements of the ware and the natural grain present in most foods.

Optik has a natural, tactile quality, which invites the diner to explore the surfaces of the piece. The embossment is subtly different on each item, further enhancing visual appeal.

Optik also has the effect of adding sparkle from reflected light as it catches tiny highlights on the pristine glaze, formed by the underlying embossment.

Koto™

NEW RANGE

Koto takes its inspiration from ancient Japanese Tenmoku glazes. These beautiful glazes vary subtly in texture and tone from piece to piece and embody the craft of the traditional potter. The pieces are hand finished with a rich iron red glaze, which interacts in the kiln to produce a warm, organic, lustrous effect.

CraftTM

NEW COLOUR

Craft is inspired by hand-crafted, simple county wares made by generations of potters over hundreds of years. The range embodies the beauty of rich, lustrous glazes applied by hand, and celebrates chance effects and reactions which occur naturally in the kiln.

The gem-like glazes married to simple forms and shapes produce a unique and individual appearance, giving Craft a rustic "joie de vivre".

Our latest colour of deep elephant grey adds a new style of sophistication to this popular range.

natural inspired warmth

INSPIRATIONAL
DESIGN

Inspired Design

Craft Grey is a new introduction for 2013. It has been specifically developed to enhance the colour values and tones of food to make dishes even more appealing and perceptibly more flavourful and is inspired by natural occurring textures.

The rich neutral colour provides a deep contrasting platform, which works as a natural base to bring out the best in quality food presentation.

Each piece of Craft Grey is individually hand decorated, so no two pieces will be the same. Further magic happens in the kiln as the glaze reacts to produce beautiful and random textured effects.

Craft Grey works beautifully on its own, or can be co-ordinated with any of the complementary colours in the Craft range.

SonataTM

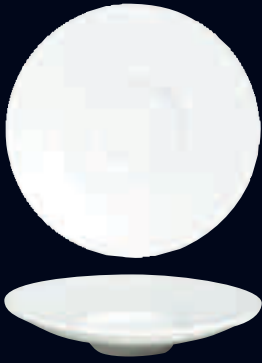

NEW RANGE

Designed by Rene Ozorio, the Sonata collection's embossment is a delicate note which complements the strong direction of the shapes. A welcome departure from the formal "nouvelle" and "fusion" cuisine of the past, Sonata's sophisticated embossment of radiant lines centers the visual focus on the well of each plate and bowl, placing emphasis on the cuisine being served.
